THE CITIZEN PARTICIPATION PLAN PROCESS

INTRODUCTION

The City of Rock Island is required by the Housing and Urban Development Department to develop and follow a Citizen Participation Plan for the Community Development Block Grant Program administered by the city. The Citizen Participation Plan must provide for and encourage citizen participation and consultation in the development, revisions, implementation, and amendments to the city's five year Consolidated Plan (Con Plan), the Assessment of Fair Housing (AFH), the Annual Action Plan (AAP), the Consolidated Annual Performance Evaluation Report (CAPER) and Section 108 Guaranteed Loan projects. The purpose of this Citizen Participation Plan is to outline and define the citizen participation process. This Citizen Participation Plan has been drafted in accordance with 24 CFR 91.105 Citizen Participation Plan for local governments.

PURPOSE OF CITIZEN PARTICIPATION PLAN

This amended Citizen Participation Plan (CPP) sets forth the City's policies and procedures for citizen participation as it pertains to the development and implementation of the city's five year consolidated plan (con plan) and the Assessment to Fair Housing (AFH). This document further outlines the steps and actions that the city will take to involve citizens in the planning and decision making process for the implementation of federally funded programs, projects and activities. Additionally, this CPP discusses how the city will report on the activities carried out through the con plan and annual action plans (AAP).

ENCOURAGEMENT OF CITIZEN PARTICIPATION

The CPP is designed to gain input from the residents of Rock Island and interested stakeholders. The Final Rule under 91.1 05(a)(2)(i) through (iii) for local governments requires that the CPP must encourage citizens to participate in the development of the AFH and any revisions or amendments made to the AFH in the same manner that the city encourages citizen participation in the development of the con plan, Substantial Amendments, AAP, CAPER and Section 108 Guaranteed Loan projects. The citizen participation process must include the groups identified below to assist in the development and implementation of all plans and reports. As such, the City of Rock Island will reach out to the citizens and identified stakeholders that are included as part of the categories below in the following ways:

- Residents of predominately low income neighborhoods
The city will coordinate with the Community Caring Conference to schedule and conduct public meetings in designated locations in neighborhoods that have low to moderate income populations of 51% or higher.
- Very low, low, and moderate income residents
The city will coordinate with the representative ward alderman to coordinate meetings to encourage public participation.
- Minorities
The city will host a public meeting at the Martin Luther King Center and run ads on the Quad City Community Broadcasting Group (WGVV) radio station notifying citizens of upcoming meetings and input opportunities.
- Non-English speaking residents
The city will follow and implement the policies and procedures outlined in the adopted Language Assistance Plan (please see attached)
- Persons with disabilities

The city will work with the ARC and the Augustana Public Radio Information Service (APRIS) to reach and inform disabled populations regarding public meeting dates, times, and meeting locations. The city will ensure that all meeting locations are accessible to those with disabilities

- Residents of designated revitalization and or blighted areas
The city does not currently have any designated revitalization areas.
- Residents of areas where CDBG funds are proposed to be used
The city will hold public information meetings in any area where a proposed project is planned.
- Residents of public and housing developments, including resident advisory boards or councils and resident management corporations.
The city will coordinate meeting information with Housing Authority representatives.

The city will also reach out to local and regional institutions, Continuum of Care providers, businesses and developers, public, private, and non-profit organizations, including philanthropic, neighborhood, community-based and faith-based organizations. Additionally, the city will consult with broadband internet service providers, organizations engaged in narrowing the digital divide, agencies whose primary responsibilities include the management of flood prone areas, public land or water resources, and emergency management agencies. The city will accomplish this through the creation and implementation of a comprehensive data base that is updated on an annual basis to ensure that all interested parties are notified of meetings and actions that affect the AFH and con plan as well as the APP and substantial amendments. The city will contact all interested parties through electronic communication, postcards with meeting information, and through the local newspaper.

Citizens may write to "Plan and/or Report Complaints," City of Rock Island Community Economic Development, 1528 Third Avenue, Rock Island, IL 61201.

ANTI-DISPLACEMENT AND RELOCATION PLAN

The city of Rock Island seeks to minimize, to the greatest extent feasible, the displacement, whether permanently or temporarily, of persons from their homes and/or business as a result of HUD funded activities involving single or multi-family rehabilitation, acquisition, commercial rehabilitation, demolition, economic development, or capital improvement. However, if displacement occurs, the city will provide for temporary or permanent relocation of persons resulting from public and private

acquisition intended for public use and voluntary rehabilitation of private property with funds from CDBG or any other HUD funded assistance program.

The city will follow the Residential Anti-Displacement and Relocation Assistance guidelines in accordance with the Housing and Community Development Act of 1974, as amended, and HUD regulations at 24 CFR 42.325 as applicable to CDBG assisted projects.

Minimizing Displacement

Consistent with the goals and objectives of activities assisted under the Act, the city will take the following steps to minimize the direct and indirect displacement of persons from their homes:

- When considering the allocation of CDBG funds, the city will discourage projects that are likely to result in a large numbers of displacements, unless the rehabilitation of a rental development is in support of a city priority
- Coordinate code enforcement efforts with rehabilitation and housing assistance programs
- Encourage staged rehabilitation of apartment units to allow tenants to remain in the building/complex during and after the rehabilitation, working with the empty units first, if appropriate and economically feasible
- Meet all HUD notification requirements so that affected persons do not move because they have not been informed about project plans and their rights

Relocation Assistance to Residential Tenants Displaced

The city will offer relocation assistance, in accordance with the requirements of 24 CFR 42.350 (a.k.a. "Section 104[d]"), for lower-income tenants who, in connection with an activity assisted under the CDBG program, move permanently or move personal property from real property as a direct result of the demolition of any dwelling unit or the conversion of a lower-income dwelling unit. The city will ensure that these tenants have the opportunity to choose whether to receive assistance under Section 104(d) or assistance under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA), as amended.

A displaced person, who is not a low or moderate income tenant, will be provided relocation assistance in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended and implementing regulations at HUD 49 CFR Part 24.

One-for-One Replacement of Dwelling Units

The city will replace all occupied and habitable vacant low- and moderate-income housing units, demolished or converted to a use other than low- and moderate-income housing, in connection with a project assisted with CDBG funds in accordance with HUD 24 CFR 42.375. Before entering into a contract committing the city to use CDBG funds on a project that will directly result in demolition or conversion of low and moderate income housing units, the city will make public and submit to HUD a One-for-One Replacement Plan that contains the following information:

- A description of the proposed assisted activity
- The general location on a map and approximate number of dwelling units by size (number of bedrooms) that will be demolished or converted to a use other than as low and moderate income units
- A time schedule for the commencement and completion of the demolition or conversion

- The general location on a map and approximate number of dwelling units by size (number of bedrooms) that will be provided as replacement units
- The source of funding and a schedule for the provision of replacement dwelling units
- The basis for concluding that each replacement dwelling unit will remain a low and moderate income unit for at least 10 years from the date of initial occupancy
- Information demonstrating that any proposed replacement of lower-income dwelling units with smaller dwelling units (e.g., a 2-bedroom unit with two 1-bedroom units), or any proposed replacement of efficiency or single-room occupancy (SRO) units with units of a different size, is appropriate and consistent with the housing needs and priorities identified in the HUD-approved con plan and 24 CFR 42.375(b).

To the extent that the specific location of the replacement housing and other data are not available at the time of the submission, the city will identify the general location of such housing on a map and complete the disclosure and submission requirements as soon as the specific data are available.

Replacement not Required Based on Unit Availability

Under HUD 24 CFR 42.375(d), the city may submit a request to HUD for a determination that the one-for-one replacement requirement does not apply based on objective data that there is an adequate supply of low and moderate income housing units in standard condition available on a non-discriminatory basis within the area.

Relocation Contacts

The city is responsible for tracking the replacement of lower-income dwelling units and ensuring that they are provided within the required period. The city is also responsible for overseeing the provision of relocation payments and other relocation assistance to any lower-income person displaced by the demolition of any dwelling unit or the conversion of lower-income dwelling units to another use financed with CDBG funds in regards to the development of housing.
